

TRANSPARENCY MATTERS

Organic Krush is continually striving to source all of our food products and kitchen items organically. Currently, some items do not exist as an organic option—others are a work in progress.

UDI'S BREADS

At this time, we are not able to source gluten-free and organic buns; our Burger Buns are crafted by **Udi's Breads**. They are gluten-free but not organic. Any vendors capable of working with us, please reach out to our Organic Krush chef and let us know if you can create organic and gluten free buns.

KITCHEN ITEMS

There are a few items in our kitchen that are a work in progress to source organically or the items do not exist as an organic option.

GRAPESEED OIL

Non-GMO verified; it can withstand high heat and not be compromised in flavor or nutritional value.

KOSHER SALT

Kosher Salt

GLUTEN-FREE BREAD

This is a bread made with millet, oats and flax; free of corn, soy, nuts and it is vegan.

ARTICHOKES

GMO-free certified

BAKING SODA

A brand that is non processed (unlike Arm and Hammer which is quite processed) and also free of aluminum.

CHIPOTLE CHILIS

We are currently trying to source an organic variety for our hot sauce and our chipotle lime crema dressing. In the meantime, our chilis are not certified organic.

COCONUT SPRAY

Used for our baked goods, we use a brand that uses organic coconuts and no soy.

WE WILL CONSTANTLY UPDATE THIS PAGE WITH THE LATEST INFORMATION, STAY TUNED FOR ALL WE KNOW AND ARE LEARNING ON A DAILY BASIS.
