DEAR KRUSH GUESTS,

When we learned years ago about the potential harm that food and the environment can have on us, we were determined to do something about it. We started in our own households when our kids were young, filling them with organic food made with love. As time passed, we knew there was more work to be done. We needed to bring organic, delicious food directly to our community—and that's how our first Organic Krush restaurant was born.

The restaurant became our promise to the world—a gathering place for our friends and families—that ensured 100% transparency in food and juice. Our commitment today and into the future will not change: to offer restaurants that are 100% free of GMO's, pesticides, hormones and body burdens. Restaurants that are 100% full of LOVE to fuel our community. Join us on a journey towards incredible health.

XO,

Fran, Michelle and the entire Organic Krush Team.

Fran & Michelle
